May 1, 2009

420 Slip, Full Service Marina on Magnificent Lake Superior

The dock refloat project is progressing and the pace is picking up now that the contractor has docks T, I & H completed. They're currently working on dock G and will progress to F, E, D, C, B, & A, in that order. We're launching boats as requested and currently have the completed piers back in place for occupancy. We also have docks A, C & E temporarily in service until work on them starts. We are trying to keep everyone informed of the progress via our e-newsletters. If we don't have your current e-mail address as well as phone numbers please get them to us. We appreciate your patience and cooperation during this necessary refurbishment. If you have any questions about the project or need a temporary slip assignment please contact us.

We have established a Barker's Island Marina **facebook** page and will be using it to stay in touch with those who are members and want to connect this way.

**Super Dock Boxes** are available for **only \$349 installed**. We have searched to find the best dock box on the market with a large capacity, attractive appearance and maintenance free plastic construction. Let us know if you would like to have one installed at your slip.

As we to launch the hundreds of boats stored here it can be very challenging working around parked vehicles. It will help us greatly, and most importantly those waiting to have their boat launched, if you will please leave your name, slip number and cell phone number on the dash of your car or guest's car. We can then contact you if we need it moved to get at a boat scheduled for launching.

In an effort to reduce the Marina's waste stream, we now have recycling bins placed at three points in the Marina. You will find them adjacent to the trash cans at the Ship's Store, Pier E, and Pier A. They are for comingled glass, plastic, and aluminum. We also have a dumpster for cardboard at the service area. Please bring cardboard boxes there for recycling.

If you don't winter store your boat with us, **Trailer Storage in our lot is \$6.75 per foot based on boat length**. To avoid being charged for trailer storage please remove your trailer promptly after you've launched your boat for the season.

We have Marina wide WI-FI internet access. For the access key contact our Ship's Store. Be aware, performance may vary as boats occupy their slips. Let us know how it's working for you.

Our spring hours at both the Ship's Store and the Service Department are 8:00 am - 4:30 pm seven days a week. Expanded summer hours will begin Memorial Day weekend.

We have changed the restroom combination. Call or stop by to receive the new combination.

Happy Boating!

Joe Radtke
